Noted Ohio Educators Speaks On Agriculture to Teachers of Oklahoma

## MRS. STEWART IS HERE

Talks On Moonlight Schools; Several Special Trains Bring More Visitors

### TODAY'S PROGRAM

At Auditorium High School—General assembly of high school, normal and college teachers at 2 p.m.

At Presbyterian Church, 2 p.m.—General assembly of county superintendents, grade teachers, rural teachers and supervisors.

At Auditorium, 3 p.m.—General assembly.

At Auditorium, 4 p.m.—General assembly.

### Convention Notes

## HOW DRY THE 100,000 WERE

One Fight and 4 Drunks Sets Police Record for Thanksgiving giving

A result for quietness was set by the police station Thursday for Thanksgiving day, the station being one of the most deserted and lonely corners in the entire downtown district. Four plain drunks, one vag and two theft charges represented the gleanings for the entire day. Considering the thousands of visitors with whom the streets were thronged all day, police officers say that the shooting made was remarkable.

The Auditorium was so packed at the morning sectional meeting that the doors were closed and admittance refused to all but newspaper men at 10:30. Friday morning great interest was being manifested by delegates to the meeting that no one is striking responsibility.

Bulletin—Geo V. Buchanan, superintendent of city schools, is entitled to wear his red fox purchased a few days ago in anticipation of crossing Thanksgiving Thursday night. Is now a full-fledged Shriner and privileged to make life miserable for poor novices at next annual meeting. Oh joy!

A reception by the teachers and people of Oklahoma City to visitors will be given in the parlors of the Lee-Hawkins hotel, on the parlor floor, from 6 o'clock to 8 o'clock Friday evening. About twenty-four people will be in the receiving line. Light refreshments and punch will be served and a full orchestra will dispense harmony during the two hours. A cabaret performance also has been arranged for. Thousands of visitors are expected to take advantage of the reception.

A pipe organ recital for the benefit of teachers from the rural districts of the state, and also from the cities, will be given continuously from the hour of 12 noon onward. Friday, to 2:30 in the afternoon, at the First Baptist church. This pipe organ is one of the largest and finest in the state.

Lynn Glover, president of the state normal school at Tonkawa, is the guest of Superintendent Geo V. Buchanan during the convention.

All retail stores report big business because of the convention. Dry goods stores have sold hundreds of expensive gifts to feminine pedagogues, while stores selling Christmas goods are reaping a harvest.

**MAY DELIVER BOOKS FREE**

**State Association Plans Novel Library Bill for the Legislature**

Books may be delivered in Oklahoma City and in other sections of the state, from a centrally located library in each county, much as groceries are now brought to the home if a bill expected to be introduced into the next legislature at the instigation of the State Library Association passes. The delivery method is known as the "County Library System," and has been in practical use in California, Maryland and Oregon for some time.

Under the system a library is located in a central position, preferably in the largest city in the county or in the county seat, a paid secretary and assistants are hired, and mail delivery apparatus provided for. Each day these traveling libraries will start out from headquarters in the morning with a complete stock of books of fiction, travel, history, biography, science and other subjects, and patrons will be allowed to select their own literature. The libraries will be maintained at public expense and will be subject to practically the same regulation as the present Carnegie libraries.

In the lobby of the Lee-Hawkins hotel Friday afternoon at 3:30 an exhibit explaining the workings of the county library system will be installed under the auspices of the state association, and will be in charge of Miss Anna LaCroix, president.

At the meeting of the state educational association in the session at the high school auditorium at 3 o'clock this afternoon, three of the most prominent library authorities in the state will discuss book problems generally and will not doubt touch upon some phase of the county system.

It is the purpose of the State Library association to have a bill introduced into the next legislature having for its aim the legalizing of the delivery system. Should the law pass it will not make the establishment of the system compulsory with the county but will permit the people to vote upon the proposition and make appropriations for the system.

In the opinion of Miss E. A. Phelps, librarian of the Carnegie Library, in Oklahoma City, the inauguration of the delivery system would be a great boon to that large class of people who for some reason or another can not or will not get their own books at a public library. "It will mean a revival of reading in the homes and will no doubt go far toward counteracting the present neglect of good literature," she said.

### School Vs. Prison

R. H. Wilson, retiring president, discussed an interesting address of some length. It treated with progressive educational thought. He sentimentally declared those who had been educated must assist in developing and educating the uneducated. From the records he had discovered it costs the state of Oklahoma \$100,000 an average to keep an inmate in the penitentiary at McAlester and the reformatory at Granite, and \$17,000 to keep a person in any one of the state elementary institutions of the state, while it cost only \$55,71 to keep one person in any one of the state's educational institutions. He entered exhaustively into the subject of rural education, and he criticized some teachers in holding back the boy who makes excellent grades in some branches and shows poorly in others.

## THE WEATHER

Generally dry, with a minimum Saturday; somewhat warmer Saturday

The low pressure system which moved northward to the east of the state has given 4000 rain inches to eastern Texas, while western Oklahoma has received only 1000 rain inches.

Temperature Saturday morning 40°; Sunday 45°; Monday 50°; Tuesday 55°.
